The Aqua Technics Pools story

The purchase of your very own swimming pool is an exciting time! A cool-off in summer, recreation for the kids and poolside barbecues have infinite appeal, yet with so many companies to choose from, how can you be sure you are getting the very best pool for your investment?

Look no further.

Aqua Technics Pools has been manufacturing award-winning fibreglass pools since 1976. Right from day one, we knew that if we wanted to be the leading swimming pool manufacturer in Australia, we also had to lead the way with product development and technology. So we began burning the midnight oil researching new manufacturing methods and materials.

And we have been ever since.

That's why Aqua Technics Pools has the best range of technologically advanced, award-winning swimming pools in Australia. When you invest in a swimming pool from us, you can rest assured your pool has been built to Australian Standard 1838 under license number 1906, includes an Extended Lifetime Structural Warranty and is available with the award-winning Pool ColourGuard®, for brilliant colour guaranteed not to fade.

We stand behind our pools so you can take the plunge with confidence, knowing that you have invested in the very best swimming pool available - a pool built stronger to last longer from the team at Aqua Technics Pools.

Milan

Proof of a better pool

Aqua Technics Pools offers a range of swimming pools that are superior in every way and meet stringent quality standards. But don't take our word for it. Simply compare the following list of swimming pool inclusions with any other pool company to confirm our value promise - you just may find yourself suitably impressed.

Leading Manufacturing Processes

- All pools built to Australian Standard 1838 under license number 1906
- Manufactured in accordance with ISO 9001 Quality Management System
- Made using certified swimming pool grade fibreglass - trialled and tested to perform specifically for pools
- All pools made to suit local conditions

Superior Structural Elements

- Enclosed steps and swim-out areas for added support
- Full-width floor and full depth walls* for maximum swimming area
- Reinforcing ribs for added strength
- Fully-matched lamination system

*excludes safety ledge range

Safety Features for Added Peace of Mind

- Modern range of safety ledge pools
- Swimouts or generous bench seating in every pool
- Non-slip surfaces

Pool ColourGuard®

- Revolutionary, award-winning surface protection system
- Patent protected - Australian patent number 2009340370
- Brilliant pool colour that is guaranteed not to fade and resist the effects of UV rays
- Lasting, high gloss finish never before seen on swimming pools
- Lifetime Interior Surface Guarantee#

Flexibility in Personal Fitout Options

- Coping stones/headers
- Underwater lights easily fitted
- Spa jets, exercise jets and air channels can be fitted

Quality Guaranteed

- Extended Lifetime Structural Warranty with every pool
- Pool ColourGuard® Lifetime Interior Surface Guarantee#

Pool ColourGuard®

Advanced Technology in Fibreglass Swimming Pools

Pool ColourGuard® with a Lifetime Interior Surface Guarantee*

Exclusive to our award winning range, Pool ColourGuard® is the world's first surface protection system for fibreglass pools that guarantees the colour **will not fade**.

Incorporating patented technology and backed by a **Lifetime Interior Surface Guarantee**,* a pool with Pool ColourGuard® offers the following benefits:

Pool colour that does not fade with a Lifetime Interior Surface Guarantee*

Even after years of regular use the pool is guaranteed to look as good as the day it was installed. The extensive range of fibreglass surface finishes is now protected from colour loss and weathering.

Superior defence against chemicals and water

Pool ColourGuard® offers pool owners a far greater level of comfort. Accidental and unintended readings of low pH and high chlorine levels will not harm the pool's brilliant colour or textured finish.

Brilliant high gloss finish

A pool with Pool ColourGuard® has a brilliant, high gloss finish never before seen on swimming pools. Pool ColourGuard® imparts a very high gloss to the pool's surface which is maintained year after year.

Withstands the effects of UV rays

Pool ColourGuard® acts like sunscreen on your pool. It's ability to withstand UV radiation has been tested and proven. Special ultra violet absorbers and inhibitors are incorporated in the Pool ColourGuard® process to dramatically minimise any degradation of the surface by ultra violet light.

The result is a swimming pool that is available in brilliant, vivid colours that will not be bleached by chlorine, oxidised by chemicals or degraded by the effects of ultra violet rays. Only a pool with Pool ColourGuard® can offer you all of this.

we dare you to compare

Swimming pool specifications

Rest assured that when you purchase a pool from our superior fibreglass range the quality will be second to none. Each pool within the range features reinforced ribbing for extra strength. Aqua Technics pools are purpose built to withstand the test of time and are so strong they are exported to countries all over the world. Take a look beyond the surface and discover a level of quality that is distinctly Aqua Technics.

Step Reinforcement

Each walk-in step reinforced with rot-proof polyurethane covered with double thickness fibreglass lay-up.

Edge Beam Detail

Non-slip surface or optional pavers designed to fit perfectly.

The design of the edge beam coupled with the width at 200mm* means that your pool is structurally sound without having to add any secondary engineering works.

*Excludes Dynasty & Royale models

When quality counts

An Aqua Technics pool is the best swimming pool you can buy. It is stronger, looks better and will last longer. Each of our pools is manufactured in accordance with a Quality Management System (QMS) as per the requirements of the International Standard ISO 9001 and are processed and supplied to comply with AS/NZS 1838:1994 under license number 1906. **Any pool builder can say they build to, or better than, the Australian Standard but for your peace of mind always ask for a license number.**

Every Aqua Technics pool is constructed using premium, swimming pool grade fibreglass designed specifically for swimming pool conditions.

New shapes and designs are made using a computer controlled CNC router that ensures precision moulds built to exacting tolerances. The edge beams are true, the shapes are geometrically perfect and the surface finish is without peer.

We also boast to have our own gelcoat manufacturing facility, where gelcoats are mixed on a daily basis, allowing them to be modified to suit ambient weather conditions. This guarantees a better product.

Our commitment to quality enables us to offer an **Extended Lifetime Structural Warranty** with every fibreglass swimming pool. We are also the only swimming pool company in the world able to offer a **Lifetime Interior Surface Guarantee*** with all Pool ColourGuard® pools. This is your assurance of an end-product that is nothing less than the quality you expect from Aqua Technics.
